Fishin' and gardening, with the former predominating, is engrossing the attention of many Lancaster gentlemen just now.

Better have a regard for the speed limit in the city limits Mr. Autoist, cause Chief Herron will get you if you don't watch out.

Beacon fires upon every hilltop do not always indicate war, just at present they indicate the activity of the farmer preparing for the sowing of his tobacco beds.

The ground hog's six weeks which he arrogates to himself, to provide such weather as he may choose, expired Sunday. We hope he enjoyed the season, surely we did not.

If you don't take the Record, call in Monday and let us add your name to our list. We will take pleasure in presenting you with a sample copy showing you just how good a paper we are giving our readers.

Come And Get Yours.

Through the kindness of Senator Ollie M. James, the Record has been provided with a liberal supply of garden seed, which will be distributed among our friends and subscribers, so long as they last. Call at the Record office and get yours before the supply is exhausted.

Extension Of Parcels Post.

Postmaster General Burleson has approved an amendment to the Parcels Post laws whereby butter, eggs, fruits, vegetables and poultry may be shipped between points in the first and second zones in original crates, such as have heretofore been handled by the express companies.

Home Missionary.

Rev. Murdock, who has charge of the missionary work of the Presbyterian church at Buckhorn in Perry county Ky., filled the pulpit at the local Presbyterian church in this city on last Sunday morning and evening. Rev. Murdock is a splendid talker and his account of the work being accomplished in his field proved very interesting to his hearers.

Grand Jury Adjourns.

The grand jury adjourned on Tuesday after having found about thirty indictments, the majority of them for misdemeanors. An indictment was found against Richard Spivey for murder, charging him with the killing of Bryan Dyehouse. The difficulty in which Dyehouse received knife wounds, said to have been at the hands of Spivey, and from which he died exactly a month later, took place on the Mt. Hebron pike on the night of February 1st.

Obituaries And Cards Of Thanks Not Free.

It is the custom of all well regulated newspapers to charge five cents per line for Obituaries and Cards of Thanks. The Record is not an exception to this rule. However, in the last few years we have deviated from this rule in many instances, but we find that we are compelled to return to the old order of things, and in future, such notices will be charged for at the rate of five cents per line, without exception.

We give a notice of every death which occurs in the county, which comes to our notice, free of charge, and should friends of the deceased desire anything further than this notice, the above rule will prevail. We are always glad to have data from which to write our death notices, just as we are glad to have all other classes of news, and should it be desired to have a more extended notice than that compiled from the data obtainable by us, we shall be glad to publish it at the above rates. The Record does not stand alone in the taking of this step, as many other papers have recently been compelled to the same step, as their columns are becoming congested with matter of this kind for which they derive no pay, and it has therefore become necessary to adhere to the rules, which they have temporarily suspended.

Automobile Season Opens.

Sunday was a beautiful day, and as if by common consent, every one who could possibly do so was "joy riding". There were automobiles of every description to be seen, from the latest 1914 model, self-starter with all the latest improvements, down to the antiquated old relic of Noah's day resurrected from the scrap heap, and coaxed along for a mile at a time, making enough noise to scare a horse a mile distant.

The increase in popularity of automobiling, the decrease in price and the consequent increase in numbers, has created less regard for those who prefer, or are forced to other modes of conveyance, they are shown less consideration than formerly, less regard is given to their equal rights on the public highway, all of which will ultimately bring the later mode of travel into disrepute. In many instances, speed laws are being utterly disregarded, and many there are who fail to take into consideration that their reckless methods are endangering the lives and property of other people.

Of course the automobile has its place and its rights, these have long since been decided, but the people who do not use this method of travel also have their rights, and above all is the greater right of common courtesy, the regard for the rights and safety of your fellowman.

The age is not so far advanced that every horse you meet is unafraid of a machine, therefore, autoists should use due diligence as to the manner in which they pass or meet vehicles, exercise due caution that you do not cause a runaway, which would probably result in the injury or death of some woman or child; these precautions would take up very little of your time and might result in the saving of human life and property, and incidentally save yourself considerable censure, and probably a costly damage suit.

As for the disregard of the speed laws and reckless running in the city limits of Lancaster, Supt. Herron will look after that matter, and a continued disregard for the laws of the city along this line will draw you a warning in the shape of a stiff fine which will serve to deter you in future from fast and reckless driving and install in you a wholesome regard for the laws of the city.

Paint Lick School To Reopen Monday.

The consolidated school at Paint Lick, which has been temporarily suspended because of a case of scarlet fever in the locality, will reopen on next Monday.

Mr. Mayo's Condition Slightly Improved.

Reports from the bedside of Hon. J. C. Mayo, who is in the Jewish hospital in Cincinnati, are that his condition shows slight improvement, though yet very critical. The most noted physicians in the east including the famous Dr. Janeway, have been summoned to his bedside.

Taking Time By The Forelock.

The Louisville & Nashville R. R. Co., is forestalling the advocates of spring cleaning and is already beautifying the premises about the depot. They have sodded the little park on their premises and enclosed it with a neat fence, and it is destined to become an ornament to that end of town.

Licensed To Practice Law.

Mr. Nat B. Sewell of London was admitted to the practice of law in the circuit court here this week. He was examined by Messrs J. E. Robinson, L. L. Walker and H. Clay Kauffman, and so we are informed, passed a very creditable examination. Mr. Sewell is well known throughout the state, having at one time been in the employ of Ginn & Co., publisher of school books.

Activity In Fraternal Circles.

Just at present there is considerable activity in fraternal circles; the Masonic fraternity are busy conferring the degrees upon many new candidates, as are the Odd Fellows. The latter order is conducting a lively contest for new members, the lodge is divided into two sides, the "reds" and the "blues", each striving to surpass the other as to the number of new candidates they are enabled to secure. This does not mean that the standard of the membership is to be lowered, upon the contrary a man must be a good citizen and his character above reproach before he will be accepted, or even approached for membership.

Bro. Tinder Having A Very Successful Meeting At Warsaw In Gallatin County.

According to the Warsaw Independent, Bro. Tinder is arousing considerable interest and is meeting with much success in his meeting at that place. Up to last Wednesday night's meeting he had nine additions to the church, and has splendid prospects for great success as the meeting deepens.

The Independent has the following complimentary notice about Bro. Tinder:-
"Rev. Tinder, of Lancaster, is at once an excellent and also an unusual preacher. The striking features of his sermons have been their simplicity, force and earnestness. The most vital and stupendous truths of the bible are set forth in a manner so simple and clear of understanding that their meaning is borne with convincing force and clearness to the auditor. Simple enough for childish comprehension, yet logical enough to engross the thought of the most intellectual, his messages each evening are both interesting and instructive."

Elkin.

Mr. Zachariah Elkin died at his home in the lower end of the county at 5:30 o'clock Monday morning of the infirmities incident to old age. His death was not a surprise to his friends and family, as he had been in feeble health for some time. After funeral services at the grave, his remains were interred at Winchester on Tuesday afternoon. Mr. Elkin is survived by one brother, Mr. John Ezekiel Elkin of Winchester, who is in his 90 year, one daughter, Mrs. Cecil Beatty of Marcellus, with whom Mr. Elkin made his home, and by four grandchildren, Mr. Elkin Smith of Winchester Ind, Andrew Smith of Lexington Ky, Mr. William Smith, of Hyattsville, this county, and Mrs. Henry McAfee, of Marcellus.

The deceased was born in Clark Co. Ky and was eighty five years of age. He was a son of Ezekiel and Nancy Elkin. His paternal grandfather was a Baptist minister and preached the funeral sermon of Nancy Hanks, mother of Abraham Lincoln. The deceased was a cousin of Capt. T. A. Elkin and Mrs. M. D. Hughes of Lancaster and was related to the extensive Elkin family of this and adjoining counties.

Mr. Elkin came to Garrard from Clark county nine years ago and purchased the Bright farm, one of the best farms in the Bryansville section. He was a quiet, unobtrusive man, and it was to those who had the pleasure of his close acquaintance that his many sterling qualities were best known. A man of the highest integrity, upright and honorable with his fellow man in all of his dealings, he came to be known and respected as one of the best citizens of the county, and one whose loss will be deeply felt. Uniting with the Christian church at the early age of sixteen years, he has followed steadfastly in the footsteps of the Master throughout his long and honorable life, thus assuring himself of his full reward in the hereafter.

The Record joins his sorrowing relatives and friends at the passing of such a noble and upright man and good citizen.

The Circle Girls will have a Candy Sale at Haseldens Store Saturday and will appreciate your patronage.

Lancaster Boy In Big Undertaking In Louisville, Calculated To Revolutionize The Retail Grocery Business In That City.

Mr. R. E. Hughes, son of Mr. and Mrs. M. D. Hughes of this city, has associated himself with Mr. Lawrence Jones, and they have commenced the establishment of a chain of grocery stores in Louisville, patterned after the style of the Kroger stores in Cincinnati and other cities, and which are calculated to revolutionize the retail grocery business in Louisville. Several stores have already been started and more are to follow as rapidly as locations can be secured. Nothing fancy, no extravagancies, no free delivery, simply the lowest possible prices consistent with a legitimate profit is their intention, and they hope to supply the people's demands at a saving of a few cents upon every purchase. The stores already established have proven successful beyond their greatest expectations, and they hope in the near future to have at least a half hundred places in operation in Louisville.

Mr. T. B. Robinson Seriously Injured On C & O Train While En Route From Washington To His Home In Lancaster.

The community was horrified on last Thursday by the intelligence which reached here that Mr. T. B. Robinson was seriously injured in a sleeping car on a Chesapeake & Ohio train near Huntington W. Va. while en route from Washington D. C. to his home in this city. He was found in his berth by the porter with a serious gash in his throat and an open penknife by his side. Mr. Robinson was taken from the train when Huntington was reached and rushed to a hospital where every possible aid was given, and though much exhausted from loss of blood, the physicians succeeded in staunching the flow, made him as comfortable as possible, and it is thought that his recovery is a certainty. As soon as Mr. Robinson has gathered sufficient strength to travel, he will be brought to his home in this city. This, it is thought will be possible the latter part of this week. His daughter, Mrs. B. D. Herndon, his brother Mr. C. A. Robinson and Mr. Harry Robinson of Danville his son hastened to his bedside, where they will remain until he is able to be brought to his home. Mr. Robinson, as is well known, was an applicant for the postmastership at Lancaster, as are Messrs John M. Farra, J. R. Mount and E. P. Brown, and had been to Washington to prosecute his claims to the office, and was returning to his home when the above deplorable accident befell him.

Full Amount Asked Awarded Plaintiff In Paint Lick Damage Suit Against The Louisville & Nashville R. R. Co. Appeal Taken.

A jury in the Garrard circuit court on last Saturday afternoon brought in a verdict of \$2,000., the full amount asked, for the plaintiff, in the suit of George Conn against the Louisville and Nashville R. R. Co. The suit was the outcome of the big flood in March 1913, in which much valuable property was destroyed in Paint Lick, and is one of several, amounting in the aggregate to the sum of \$40,750. The remaining suits are yet to be tried, but because of the fact that this is the last week of court, and the pressing nature of other matters before the court, they will not come up. They are of the same nature of the suit just adjudicated. The verdict was signed by only eleven of the jury, one of the number dissenting. The attorneys for the railroad immediately gave notice of appeal, and the case will go to the Court of Appeals.

The contention of the plaintiffs in the case was that the waters of the creek, which is crossed by the railroad immediately east of Paint Lick, were obstructed by the railroad building abutments in the channel of the stream, thus causing the swollen waters to leave their original channel and flow through the village of Paint Lick. Much expert testimony was introduced by both sides, and much interest has been manifested in the final outcome of the litigation.

Mr. Conn was given judgment for the full amount sued for, which was \$2000. instead of \$6000., as was inadvertently started in last weeks Record.

SUNDAY SCHOOL

Lesson XII.—First Quarter, For March 22, 1914.

THE INTERNATIONAL SERIES.

Text of the Lesson, Luke xlii, 18-35. Memory Verses, 18, 19—Golden Text, Matt. vii, 21—Commentary Prepared by Rev. D. M. Stearns.

The topic of this study is entitled "Lessons by the Way," and in the verses for today we have lessons for all the way, always centering upon Him who is "the way," hated by His adversaries, rejoiced in by His people (verse 17). There is much in the lesson concerning the kingdom, for which He taught us to pray to our Father in Heaven, saying "Thy kingdom come." We must distinguish between the present age, during which the kingdom is postponed and which our Lord spoke of as "the mystery of the kingdom of God" (Mark iv, 11), and the kingdom itself to be set up on this earth at His second coming in glory.

The two parables of our lesson must be studied in the light of their setting not only here, but as first recorded in Matt. xiii. The closing verses of our lesson chapter tell of the desolation of Jerusalem until He shall come again. But when the kingdom comes Jerusalem shall be the throne of the Lord, a city of truth and a praise in the earth (Jer. iii, 17; Zech. viii, 3; Isa. lxi, 6). In Ps. cii, it is written that the Lord will build up Zion when He shall appear in His glory. The kingdom was at hand when our Lord was here in humiliation, as was preached by our Lord Himself, and by His apostles, as well as by John the Baptist, but because they rejected Him and killed Him He plainly told them that the kingdom would not come till His return from the far country (Luke xix, 11, 12). He did not begin to speak in parables until they determined to kill Him (Matt. xiii, 14). Then follows in Matt. xlii the seven parables describing this age of the mystery of the kingdom. The parables of the mustard seed and of the leaven in this lesson are repetitions of two of those, the former speaking of a great tree with birds in the branches and the latter of leaven in the food.

In explaining the parable of the sower our Lord said that the birds represented the wicked one (Matt. xlii, 4, 10), and a symbol once explained stands. We have seen in a recent lesson that leaven is always a symbol of evil. The teaching therefore is that in this age of the mystery of the kingdom or the time between the rejection and the coming of the kingdom, many followers of the wicked one will profess to be interested, but the teaching will become thoroughly corrupt, and tares, the work of the devil (Matt. xlii, 28, 29), will be found with the wheat till the end of this age. To all these deceived and deceiving ones He will have to say, "I know you not whence ye are; depart from me, all ye workers of iniquity" (verses 26, 27). Many shall come from all parts of the earth to share and enjoy the kingdom, while many who thought themselves deserving of it shall find their place where there is weeping and gnashing of teeth (verses 28, 29).

We must ponder well and lay to heart the words of our Lord to one of the best and most religious men of his day, "Except a man be born of water and of the Spirit, he cannot enter into the kingdom of God" (John iii, 5).

Judging from the denial in our own times, of the fundamental truths of the gospel, it is to be feared that many church members and many ministers and missionaries have never been born again. It is not for us to talk about few or many being saved, but it is essential that each one should know for himself that he is saved by receiving the Lord Jesus Christ as his personal Saviour, and that appropriating the great truth "The Son of God loved me and gave Himself for me," "His own self bare my sins in His own body" (Gal. ii, 20; I Pet. ii, 24). He is able to say, "I know that my Redeemer liveth." "I know whom I have believed" and, "having come to Him, I am not cast out" (Job xix, 23; II Tim. i, 12; John vi, 37). It is still the accepted time, and the day of salvation for all who will come, but when once the door is shut it will be too late. There will come a time when the despisers and haters of truth shall call and get no answer, shall seek and shall not find (Prov. i, 24-31). Our Lord said that unbelievers shall die in their sins, and thus dying, cannot come where He is (John viii, 21, 24). As in the days of Noah, it will be shut in or shut out in this age of the mystery or the postponement of the kingdom, the Spirit is like the servant of Abraham, telling of the riches of the Father and the Son and seeking a bride for the Son, or, in other words, gathering from all nations by the preaching of the gospel of the risen Christ the church or body of Christ, but we must never confound the church with the kingdom. The church will reign with Christ in the kingdom, but the kingdom will include all nations, as it is said in Dan. vii, 27, "The kingdom and dominion and the greatness of the kingdom under the whole heaven." There may be some great surprises awaiting us when we shall see Abraham, and Isaac and Jacob and all the prophets in the kingdom of God, and the twelve apostles on thrones judging the twelve tribes of Israel (verse 28 and chapter xxiii, 30).

His reference to the two days and the third day (32) may point to the 2,000 years of this age, and the next thousand, which will be His reign of righteousness and peace.

HORSE BREVITIES.

Never back a mare that is heavy in foal, especially if the load is heavy or the ground muddy. Such a mare can do plenty of work in pulling ahead.

If there were fewer whips in the world there would be fewer ugly horses.

It costs a good deal of money to buy a satisfactory team. In most cases this can be avoided by the farmer raising his own.

Out straw that is free from mold makes an excellent winter forage for idle horses.

All the growth and thrift that can be encouraged and maintained during the first year of the colt's life insure a stronger and a better horse.

If dusty hay is fed sprinkle with water, and it will save the horse much annoyance, but better not feed it at all.

SILAGE FOR SHEEP.

Judiciously Used Ensilage Is a Cheap and Valuable Feed.

Accurate data regarding the value of silage in a ration for fattening sheep and lambs are scarce, but what there are indicate that it is useful, says Ellis Roll of the University of Nebraska. As far back as the early nineties the Michigan experiment station fed some lambs on silage and other foodstuffs. The gist of their findings is to the effect that a mixture of fodders composed largely of a good quality of silage proved a cheap and successful ration for fattening lambs.

The Iowa station at Ames made some comparative tests of dry hays, roots and silage as roughage in 1906 and 1907. In lots fed the first winter the silage cheapened the ration considerably. During the second winter the various lots were fed for a long period, 108 days, and the silage lot refused to eat much silage. They ate almost as much grain and hay as the other lot did and the gain on these silage lambs was more expensive than was that with some of the other food combinations. But the average of the two years was favorable to the use of silage as a means of cheapening the ration. The lambs from all lots finished into market toppers, but the dressed carcasses showed the silage lambs a little superior on the hook. Taking these few experiments then into consideration and also the general results which various feeders have obtained in practical work, it seems that silage has an important place among desirable and economical feeds for fattening sheep.

It is my opinion that silage can be fed to sheep with satisfactory results. The use of moist or frozen silage may cause trouble, but good, clean, bright silage can be used with excellent results, either as a succulent food for breeding ewes in winter or as a cheap but satisfactory and efficient roughage for fattening sheep and lambs. This opinion is based partially on observations of flocks which have been fed and partially on the experiments quoted above. The results to date point toward silage as a cheap and valuable feed for sheep.

RATION FOR EWES IN LAMB.

Alfalfa Hay With Corn Makes an Excellent Winter Feed.

Thousands of ewes carrying lambs are successfully fed in this country every winter with no other feed than good bright alfalfa hay, says the National Stockman. However, it will do no harm, and it may be well to give these ewes a light ration of corn in addition to the hay, especially as they approach lambing time. If the ewes are young they will do as well on the whole corn as if it is ground.

In a large sized flock, however, some ewes will not have the best of teeth, and it will be well to crack the corn, but it should be coarse. Sheep like corn in this condition much better than the meal. Start with a quarter of a pound of corn per ewe per day or even less and increase to a half pound as lambing time approaches. If the ewes are westerners that have not tasted corn start with but a few grains per ewe daily until they learn to eat it. Give all the alfalfa hay they will eat up clean. Supply plenty of fresh water that is so clean you yourself would drink it. Give salt regularly, and it would be advisable to use a good medicated salt.

Free Hogs From Lice.

Lice on hogs can be eradicated by applying along the back of each hog some crude oil. They can also be killed by washing or dipping the hog in coal tar dips, several of which are on the market. The beds and litters of pigs should always be clean and free from dust. A mangy, lousy hog is not a healthy hog, and the dust and filth accumulating in the shed which is left uncleaned supply ideal conditions for the development of vermin and disease of the skin. The eggs of various internal parasites and lice are found in large numbers in the dust and filth of the sleeping quarters which are left uncleaned and without being disinfected. As a result, these parasites increase rapidly and spread through the whole herd.

Horses Need Exercise.

Be sure to give each horse exercise every day in harness or yard, except, of course, during storms. Box stalls are the ideal ones, and every stable should have several, at all events one or two. On stormy days during winter horses can be changed to these boxes and given a chance to move around.

Use Kerosene For Farm Engines

Kerosene can usually be bought for about half the price of gasoline and

Fairbanks-Morse Jack of all Trades Kerosene Engines

will develop as much power on a gallon of kerosene as on a gallon of gasoline.

Bear in mind that in a Fairbanks-Morse kerosene engine you have one you can absolutely rely upon. They are fully developed and will do all we claim for them. Our patented double fuel tube reservoir makes them easy starting even in cold weather and does away with any adjusting for varying loads.

While designed especially for kerosene these engines will use either kerosene or gasoline economically. Very simple in construction. All parts accessible. Quiet, smooth running engines that develop full power at low speed.

It should not be, nor do we believe it is, necessary to again call the attention of the citizens of Lancaster to the necessity of an annual cleaning up of their premises and the city; the splendid health of the community which has rewarded their efforts along these lines in the past should, and doubtless will, prove sufficient incentive, without reminders from us. But "eternal vigilance is the price of liberty," applicable to health as well as action, and we deem it not amiss to briefly remark upon the annual necessity. In the "Womans Club" department of the Record last week, requests were made by these worthy ladies, which if complied with, will redound to both the health and beauty of Lancaster.

To these requests we wish to add one, that the people of the town look well to their premises before the coming of the heated season, see that the winters accumulation of refuse is carted away and disposed, either burned, or so disposed of that the objectionable matter therein contained will not prove a menace to the health of the community; that they whitewash and place their premises in a thoroughly sanitary condition, thereby materially aiding in keeping the health of the city up to the high standard which has been maintained through their cooperation in the past.

There are several miles of new concrete walks within the city, and bordering upon these walks are many beautiful lawns, Lancaster has splendid possibilities of having the most beautiful lawns in Central Kentucky, provided they can be protected from the ravages of the "town cow". This protection surely should, and we believe will be, afforded us. We have a newly erected stray pen, built for the special purpose of impounding stock which is permitted to roam at large, to the imminent danger of these lawns, and we hope that the "stray pen law" will be rigidly enforced. If your premises are threatened from the inroads of stray horses, cows or hogs, we suggest that you call up Chief Herron, who will doubtless look after such intruders in such a manner as will preclude the possibility of your being bothered a second time by this same stock.

As for the dogs, this is indeed a knotty problem. Lancaster is infested with a painful surplus of undesirable and worthless canines, and they roam at their own sweet will to the annoyance of the entire community. Not only do they make severe and expensive inroads into the flocks of the farmers who live near town, but they annoy the housewives of the city, nothing can be left outside the house in the way of food but it is disturbed by them; they make night hideous with their yells and barking and the sick are disturbed, the well annoyed, and the community in general are the victims of this pack of hungry, worthless mongrels. The rigid enforcement of the collection of the dog tax and the stringent rules accompanying its non payment, might help to some extent, but a wholesale shot gun quarantine would surely be the surest means of putting an end to this long complained of nuisance.

Legislature Adjourns Sine Die.

The 1913 session of the Kentucky Legislature became history on Tuesday and there is scant grief at its passing. The time allotted to it by law expired by limitation on Tuesday. We would be glad to give a list of the measures which were passed and will go upon the statute books of the state were in possible, but it would take a probe at the present time to find these, and besides, many of them yet have not received the signature of the Governor and may be voted by him. The closing scenes were marked by pandemonium and many men were upon their feet at one and the same time clamoring for recognition. The work accomplished in the closing hours killing of the Webb State Wide Prohibition Bill, the Taxing and Revenue Bill, the two and one half cent passenger fare bill, the "Red-lights" bill, Finn Railroad Commission Bill, Panama-Pacific Exposition Bill, and the bill placing express companies under the Railroad Commission. The following bills were passed: Workmen's Compensation, Creating Commissioner of Motor Vehicles, appropriating \$20,000 to maintain Capitol and Governor's Mansion, Providing Extra Examiners for Insurance Commissioner, Submitting tax amendment to vote of people as well as submitting the Convict labor amendment to the vote of the people.

Don't forget the Candy Sale for the benefit of the four churches, at Brown's Store, Saturday and court day

No Extra Session.

Notwithstanding the fact that strong pressure was brought to bear upon Gov. McCreary to induce him to call an extra session of the Legislature immediately following the closing of the regular session, devise some means of providing relief from the obnoxious insurance legislation recently enacted, he declined to do so. Insurance companies continue to withdraw from the state, and unless some remedy is devised, Kentucky will suffer severely because of the lack of insurance. Loans on real estate are being called in because of the fact that property is not insured, and in the event of their burning, the companies making the loan would suffer, merchants are unable to purchase such stocks as is their custom because of their inability to get insurance, and of course as a result, are unable to get the credit to which they have been accustomed, and there are many other hardships which will be worked upon the people of the state because of this measure.

Drivers Of Automobiles In Passing This Horse Should Sit Up And Take Notice.

There is a horse in town that lets no opportunity pass to express a violent dislike for automobiles of every description. He is owned by Rev. Mr. Beagle, the beloved pastor of the Baptist church at this place. His name is Prince, a large, bay animal and a first rate stepper. Often on a fine afternoon, while he is drawing the ministers carriage over the streets, the equipage meets an automobile, or is overtaken and passed by one. On these occasions as the car rushes past, the horse snorts in anger, flattens his ears and shaking his head resentfully, lets fly in a lateral direction and with tremendous energy an iron bound heel at the speeding offender. The very presence of the modern juggernaut seems to inspire in this intelligent animal a singular fury, which almost invariably finds definite expression in the manner described. It is apparent from the foregoing, therefore, that any chauffeur who may be disposed to "crowd" Prince on the public highway, will do so at the risk of getting a tire unshipped, or bearing away the deep imprint of a horseshoe on the brewster green streamlines of his smoke wagon. Brother Beagle only recently purchased this horse and is very much attached to him, not because of invincible antipathy to automobiles, but on account of his numerous good qualities as a family carriage horse.

Much Interest Awakened In The Cause Of Education By The Visit Of Miss Gardner To Lancaster.

Miss Lida B. Gardner, Supt. of Schools for Nicholas county who is also State Organizer for the Kentucky Educational Association, visited Lancaster on Tuesday and made an address at the Police Court room. She had a large and deeply interested audience, and her remarks proved of inestimable value to those who heard them. Her object was to organize the trustees branch of the association. The trustees of the county were present in much greater number than might have been expected, which of itself proves that these gentlemen are taking a keen interest in the cause of education in the county, and Miss Gardner's remarks awakened new interest, aroused them to a sense of their responsibility, pointed out to them that they were the very foundation of the educational system of the county, that the responsibility for the vast school system rested upon their shoulders, and the success or failure of the cause of education in Garrard county was with them. Such an impression did her remarks make upon these gentlemen, that thirty of them immediately enrolled their names as members of the trustees auxiliary of the association, and signified their intention of attending the meeting of the K. E. A., which is to be held in Louisville on April 29th.

Miss Gardner is a lady of splendid mental attainments, a forceful and logical speaker and places her meaning in such an earnest and impressive manner before her hearers as to make a deep and lasting impression. She is accomplishing untold good for the cause of education in Kentucky, and her whole heart seems to be in the work. She is serving as Supt. of Schools for Nicholas county for the second time, and the good people of Nicholas are to be congratulated on having such an able person at the helm of their school system.

Miss Gardner while here was taken by Miss Higgins to visit the two consolidated schools of Garrard county, and she speaks very highly of these institutions. She also speaks in a very complimentary manner of the school trustees of Garrard, and says that notwithstanding the fact that she has visited many counties in the interest of the K. E. A. that she found a keener interest among the trustees in Garrard than any place she has visited, that our trustees are a representative body of men, and are calculated to become a power for good in their own county, and that their example is well worthy of emulation throughout the state.

Miss Gardner's remarks were well received and highly complimented by all who heard her, and it is thought that the already flourishing cause of education in the county will receive fresh impetus thru the influence of her visit and advice.

Will J. Price Verifies The Prediction Of The Record That He Would "Make Good" As Minister To Panama.

When William Jennings Price was appointed Minister to Panama, the Record, knowing him as we do, was constrained to the prediction that he would give a good account of himself, or to use the slang expression, would "make good". That he has more than done so, has reflected credit upon himself, his friends and the home of his nativity is fully verified by the following article by Arthur B. Krock, the well known newspaper correspondent in a recent letter to the Courier-Journal:

"There is one man on the Isthmus and one only, whose work is such that the fractional disturbances rage far distant from his sphere. He is William Jennings Price, of Danville, the American Minister, and the labor he is performing in the interest of the United States are as valuable as the canal building itself. It is his business to see that nothing happens in the Republic of Panama that will disturb the safety, operation and maintenance of the canal, and upon his success very much depends. Mr. Price is a young man and an exceedingly modest one, but he has established relations with the Panama Government and the natives of the country that have resulted in great good feeling for the Government of the United States.

While negro blood largely prevails in the mixed race that inhabits the republic, there is enough of proud Spanish and fierce Indian to incline the Panamanians toward hatred of the big country that is digging the canal and, while it befriends and protects them, does it, at the same time, patronizingly. To the American on the Zone all natives are "speaktities" or "riggeres" and when he does not sneer at things Panamanian he laughs, which is almost as irritating. So Mr. Price, in his quiet way, while undertaking to protect the great interests of this Government, has undertaken also to promote good feeling between the two peoples, and it is a work that will yield rich fruit to the United States. It keeps him busy fifteen hours out of the twenty-four; it brings him up against high barriers and sets many stumbling blocks to his feet. But he is winning his fight, and the results are already appearing. The American Minister is one of the most popular men in the Republic, and when he attends a native theater or his carriage is seen on its way to a Spanish house the street loungers touch their hats to him and make way for his horses.

Although the United States exercises practically a protectorate over Panama, and Mr. Price is actually more powerful by far than the President of the country, he has masked his power behind gentleness and forbearance and while not sacrificing force and watchfulness, has yet been wisely diplomatic. No post in the Government service at this time is more important than the modest work of the young Danville man when the canal is finally opened to the fleets of the world and the Isthmus and military center of this hemisphere.

Lexington Opera House Great Spectacle Coming "Joseph And His Brethren".

The third of the Century Theatre dramatic Spectacles, "Joseph and His Brethren", will come to the Lexington Opera House April 13th, 14th and 15th. In some respects it is built on a larger scale than either of its predecessors, for it has twelve scenes where "The Garden of Allah" had only eight. There are more than sixty speaking parts. Its success has been phenomenal.

"Joseph and His Brethren" is a vitalized version of the story in the Book of Genesis, written for the stage by Louis N. Parker. Mr. Parker is known chiefly in America for his "Disraeli", and "Pomander Walk", but in England he is known as the author of many other successes, including "Drake", the hit of the last London season. "Drake" was given a spectacular production at His Majesty's Theatre by Sir Herbert Beerbohm Tree, who has also produced "Joseph" there this season.

To present "Joseph and His Brethren" The Liebler Company has selected a cast of unusual ability. Brandon Tynan, who has been a star in his own plays and leading man for Nazimova, will play the role of Joseph. James O'Neill, of "Monte Christo" fame will have the part of Jacob, the patriarch, and in the third act will play Pharaoh. Pauline Fredericks, pronounced by artist Harrison Fisher the most beautiful woman in America, and numerous other players of reputation will be seen in the cast, while the heads of all technical department of the Liebler Company who worked out and produced the so-called "effects" in the play, will accompany the big production here.

The company when traveling has almost the proportions of a circus, with its special train of fourteen cars for the people, scenery and live stock. Among the latter are herds of camels, oxen, asses, horses and sheep.

The four acts of "Joseph and His Brethren" will be known as "The Coat of Many Colors", "The Temptation", "The Dreams", and "The Deliverer". The scenes will be respectively: "The Tent of Shechem", "The Wells of Dothan", "Jacob's Tent", "In the House of Potiphar", "Potiphar's Garden", "Zuleila's Room", "In the Prison", "In Pharaohs Palace", "Jacob's Tent", "The Entrance to Jacob's House", "The Pyramid" and "In Joseph's House".

Eloquent Tribute To The Memory Of Goebel, By A. O. Stanley.

Congressman A. O. Stanley was the chief orator of the day at the unveiling of the handsome bronze statue erected to the memory of Wm. Goebel at Frankfort on March 10th. The weather was so unfavorable that the unveiling services were held in the Representative Chamber of the Capitol. So eloquent and effective was the address of Mr. Stanley in detailing the life and character of Kentucky's martyred Governor that the members of the Legislature who heard the speech were influenced largely in this way to pass the Fenn Railroad Bill dealing with the regulation of freight rates. We here give an excerpt of this beautiful tribute.

STANLEY PAYS TRIBUTE.
Congressman A. O. Stanley said: "He sat for an hour in the seat of authority, gazed into the admiring eyes of his assembled countrymen, heard the tumultuous applause of devoted thousands, and then in the flower of his virile and vigorous manhood he fell at the very threshold of the splendid vista of honor and distinctions that opened before him.

"A generation ago William Goebel spoke at times almost in an unknown tongue. He talked of the separation of the business of transportation and production. He demanded the rigorous and effective regulation of common carriers; that they should be impartial in rates to shippers and just in the payment of taxation to the State.

"With ever-increasing emphasis, as a candidate for Governor and as your nominee for that high office, he declared that the rate issue, the bottom question in this fight—that from which public attention should never be directed—was whether the laws of Kentucky should be enacted, construed and executed by the people of Kentucky, or by powerful and privileged interests.

"For the raising of that issue he was denounced as a demagogue, assailed as an assassin, pilloried by a corrupt and subsidized press. Every detail of his private and public life perverted and distorted by the evil ingenuity of envy and hate. His sacred and sainted deeds were dragged from the tomb and held up to contumely and contempt by servile hirelings and salaried slanderers. And when his malignant foes and their accursed god had failed to debauch the electors or defeat the fixed purpose of the people, in utter desperation they fired the black heart of murder and armed the assassin for the dastardly deed that closed in darkness his great career and covered the Commonwealth with a pall of horror and of shame.

"What were the crimes for which William Goebel fell?

"He protected the Railroad Commission of Kentucky from the miners and sappers who sought to destroy it, and with a lash of pitiless scorn, drove from the corridors of the Capitol a nest of lobbyists who sought to debauch the legislation and despoil the State.

LIMIT FOR HOURS OF LABOR.

"He proposed to limit the hours of labor for an army of men engaged in the most perilous enterprise known to peace or war, that the toiler might commune with the family he sustained, and that hundreds of men might not be dashed to death, because some weary wreck driven without rest or repose, through the long hours of the day and the night, fell asleep at the key or the switch.

"He proposed to confer upon the engineer at the throttle the same measure of protection which for years the law had secured to the tramp upon the highway. He proposed to extend and enlarge the meager and ineffectual powers of the Kentucky Railroad Commission, that it might become an actual shield, to the shipper from extortion and to the State from fraud and chicanery.

"Let impartial history—looking back over twenty years of Federal legislation—say whether William Goebel was an incendiary or a seer. The reforms he proposed for a State became the goal and the models for the law-makers of a nation.

"Monuments are erected to the living, not the dead. We need no storied urn or animated bust to redeem from oblivion the fame of William Goebel. His name is engraven upon the hearts of his countrymen and his deeds mark the proudest and most tragic page in the history of his country.

"This is not a monument, but a beacon. It is erected here not to mark the resting place of the dead but to direct and inspire the onward march of the living."

Beckham Opens Senatorial Campaign.

A large crowd of admiring friends greeted former Governor Beckham at Elizabethtown last Monday and heard his opening speech in the senatorial fight. Governor Beckham is very popular in Hardin County and his opening gun was fired under favorable circumstances. The speech of the Ex-Governor is considered by his friends as rather a strong defense of the attacks made against him by his opponents. The principle dart of his speech was attacks upon Congressman A. O. Stanley, who he seems to consider his contending opponent. In defending attacks by Mr. Stanley that he is a representative of the L. & N. Railroad Company the speaker said in substance that he was only an employed attorney for that corporation and that the fees paid him as such an attorney were not so large as has been represented, but was only \$800.00 a year. He attacks Mr. Stanley vigorously upon the liquor question and charged that he was friendly with the liquor interest while he, Beckham, had always stood for the cause of temperance and helped to enact the County Unit Law and had made sacrifices for the cause of temperance and that he encouraged the animosity of the liquor interest of Kentucky.

He referred to his record as Governor and thought the success of the administration was well known to the people of the State. The speaker did not think it necessary to review the charges made against him by Mr. Stanley for enacting laws favorable to the organization of trusts and the Louisville and Nashville Railroad Company, because no one else had ever attacked those laws except Mr. Stanley. Mr. Beckham defended his position at the Baltimore Convention in voting against the resolution of Wm. Jennings Bryan, which sought to expel delegates representing the trusts' interests there, some of those delegates being Belmont and Ryan because he thought the resolution extreme. The Senatorial fight is now on in earnest and Mr. Stanley's reply is expected to be interesting.

The Womans Club

(Edited By The Womans Club)

Clean Up Campaign.

A clean up campaign should be started here in the early Spring. Clean up, Paint up, Fix up—These should be the slogans of a campaign conducted by the Civic department of the Womans Club helped by every good citizen of the town. The Clean Up campaigns have been successful in other towns, and if the matter is taken up vigorously here the results will be apparent to all. Do not wait until flies come to clean up and remove manure from the stables. Swat the breeding place of the fly.

The following editorial was sent to the Danville Advocate by "Rich" and is as applicable to Lancaster as it is to Washington City or Danville.

"The old Roman aphorism is as good today as it was when first uttered: 'In times of peace prepare for war.' This injunction is almost imperative, and should be heeded by every citizen all over the land and should also be espoused by every civic body in the connection it is used—'Head off the Fly' rather than wait and 'Swat the Fly.' The following editorial appeared this week in one of Washington's wide-awake papers and it is as applicable to Danville and it is to the Capital city:

Has it ever occurred to the people of the District of Columbia who visit the beautiful cemeteries surrounding their city on Decoration Day, or at other times that a large percentage of the monuments they see dotting the smooth green lawns or nestling beneath the trees are memorials of the energy and sinister efficiency of the house fly? This is especially true of those little marble figures that are raised over the small mounds beneath which lie the bodies of the infants sacrificed through ignorance.

For a number of years the American Civic Association and public health agencies have called attention to the dreadful scourge of the house fly. When the anti-fly campaigns were first started it was along the line of killing them during the first warm days of summer. Much of the energy expended was wasted because the flies multiplied much more rapidly than the blows at its existence found this mark. The campaigns accomplished some good result, but were largely like the effort of the old lady who attempted to sweep back the tide—where one fly was swatted a thousand came to take its place.

There is no question that a preventive campaign started now and maintained with sufficient vigor will reduce flies to a far greater degree than the most energetic and successful swatting campaign two or three months later.

The breeding place of flies is in filth. The way to stop the fly is by preventing the accumulation of filth, and utilizing the simple disinfecting agencies that the Health Department will furnish to every citizen. It has been estimated that every fly killed in March means a million less flies in August.

At the last meeting Miss Robinson read a splendid paper on "The interest of the child and how to educate it." Questions of vital interest to both parent and teachers were discussed by the teachers and parents, and a parent-teacher club was suggested and we think will be the practical outcome of its meeting. The next meeting along the line of the Anti-Fly campaign, and all will do well to read the suggestions sent out from Washington.

Favorite Recipes Of

Well Known Women.

BY MRS. B. P. SWOPE, OF BRYANTSVILLE, KY.

Frozen Pudding.

- 1 lb. of seeded raisins,
- 1 lb. of figs,
- 1 lb. of citron,
- 1 lb. of almonds,
- 1 lb. of english walnuts.

Blanche your almonds by pouring boiling water over them, cut all the ingredients fine and mix together. Make a quart of very sweet custard, flavor to taste with vanilla and whisky, and pour over the fruit while hot the night before it is used. Pour into the freezer and add enough rich cream to make a gallon and continue to freeze until stiff. Remove the dasher, pack in ice until ready to serve.

Miss Katherine Harris has been in Stanford where her step-mother, Mrs. J. Randolph Harris tendered her a handsome birthday party on last Friday evening; the dining apartment was artistically decorated in lavender and white, the cakes, candies and other confections observing the same color combination; there were about 50 of Stanford's Junior Society set included on the invitation list.

A marriage of much interest to Garrard and Lancaster folks is that of Miss Gretchen Marie Haydon, as the

bride's mother was formerly Miss Pattie Gibbs, of this county a sister of Mr. Luther Gibbs; the vows were solemnized at the First Baptist church in Lexington on Wednesday, the groom being Mr. Grover Cleveland Rout of Lawrenceburg, and the clergyman tying the nuptial knot, the Baptist minister, Dr. J. W. Porter.

Miss Rosa Rontt, the groom's sister, served as maid of honor, and Mr. William Townsend as best man. The bridesmaids were Miss Elizabeth Haydon, Miss Cleo Gillis, Miss Genevieve Johnson, of Missouri, and the ushers Mr. Seneca Routt of Lawrenceburg, Dr. Robert Graham and Professor Carmody. The couple left after the ceremony for a trip to New York and other points East, and will then go to Canada to make their homes.

Miss Elizabeth Haydon gave a beautiful pre-nuptial dinner in compliment to her sister, the bride-elect at their attractive country home on the Harrodsburg road; the decorations of red carnations with many pretty plants in the background gave the apartment a festive appearance and the table appointments observed the same affective color scheme, the confections being created in pretty bridal designs and at each place were little wedding slippers.

Several Lancastrians were among the guest and standing in the receiving line with the hostess was Miss Elizabeth Gibbs of this place, she being a first cousin of the bride-elect.

The Epsilon of Alpha Gamma Delta of State University entertained also at a pre-nuptial affair in their fraternity rooms at Patterson Hall with a burlesque shower and supper in honor of Miss Gretchen Marie Haydon, the attractive Lexington bride elect of the week.

PHILIPPS BROS, Stanford, Ky.

A Good Jack, and a Stud Pony to make the season at

TINKER'S RETREAT.

Hyattsville, S. H. ALDRIDGE, Proprietor. Kentucky.

OLD BLACK JOE.

This Jack is 3 years old 15 hands high not up on stilts, but stout built, good body and bone. He is by Old Huggler, the Jack the Burton's stood, and has as many good mules to his credit, as any Jack in the county. The dam of this Jack is John Morgan bred, and traces back to such famous sires as Beecher, Prime Minister and Joe Blackburn.

SILVER SILK.

A beautiful black and white spotted pony, 54 inches high, good style and action, is sired by Sam Cecil's pony who has as many blue ribbons to his credit as any pony in Boyle county. His dam is an extra good pony mare and he certainly shows good breeding. They will stand at

\$8.00 Each To Insure A Living Colt.

A lien will be retained on all colts until season money is paid and the season is due from the man who bred the mare, if sold or parted with. Care taken to prevent accidents but not responsible should any occur.

Registered Hampshire Hogs for Sale at All Times.

Alexander Stamp, 12696.

Foaled April 12, 1906, bay blaze and three white feet, sired by William Stamp, 9740.

Dam Sally Hamilton, 12426. This is an awful good breeding Clyde breeds, good form, broad and close to ground. Just the horse to get work and brood mares from.

Recently I met a Ranchman from South Dakota who bred over 100 mares yearly and he said "The Clyde Horse was the only draft he could get, that would get him a saleable horse from a Texas pony mare up," this means a great deal as our horses are too small as a rule for work or good mule mares. This horse has proven as sure as any horse I ever kept for service.

\$12.00 TO INSURE.

I will also at same time and place stand Two Black Jacks, 15 and 15½ hands, standard, as much bone, foot, head and ear as Kentucky affords with lots of weight, both sound and prompt. Look at the above stock before breeding.

Jacks Stand at \$10.00 To Insure.

These Jacks were bred in Nelson County, Kentucky, and by what was known as the Bivon Jack, considered by all who know him to be as great as the greatest. He was 16 hands high. Dam of older Jack was by Governor Wood, a great one. I guarantee satisfaction when your colt comes. Above stock will make the season of 1914 at Buena Vista, Ky. A lien retained on all colts for season money. For further information apply to

G. H. RUBLE, Agent.

Madison Peavine 3405

Will make the season of 1914 at my place on Lexington pike at

\$10.00 To Insure A Living Colt.

Madison Peavine, is a beautiful chest nut with star and left hind foot white. He is royally bred, being by Kentucky Peavine and he by Rex Peavine. 1st dam Maud Helton by Madison Squirrel. You will make no mistake by breeding to this horse.

I will also at same time and place stand my two fine Jacks at

\$10.00 Each to Insure a Living Colt.

My Jacks are fine individuals and their breeding can be furnished you at my barn. Lien retained on all colts for season money. Season due when mare is traded or parted with. Care taken to prevent accident but not responsible should any occur.

Prominent Railroad Man Dies In Wichita

Texas. Married Well Known Railroad County Lady.

The following is taken from the Wichita Falls (Tex) Daily Times: "W. B. Shepperd, aged 30, traveling freight and passenger agent for the Fort Worth & Denver and the Wichita Valley Railways and also a representative of the Burlington system and the Trinity & Brazos Valley Railway, died at his home here at 6:30 Thursday evening, after an illness with kidney trouble. He had been confined only about fifteen days but had never recovered full from the effects of ptomaine poisoning when he was stricken more than a year ago and which is believed to have led to his fatal illness. A little more than two weeks ago Mr. Shepperd took cold and went home sick. That night he was unconscious and his condition at once became critical and dangerous.

He leaves a widow, formerly Miss Dot Walker and his mother, Mrs. W. H. Shepperd, a brother, Hubert Shepperd and a sister, Mrs. H. C. Larson of Dallas. These and many friends mourn the death of one whose gentle generous character and kindly courteous ways made him beloved by all with whom he came in contact.

Mr. Shepperd had been in Wichita Falls since 1908 when he took a position in the Fort Worth & Denver office here as chief clerk to Agent M. A. Bundy. In June he was promoted by his company to the position of traveling freight and passenger agent making his headquarters here. In this position he met business men over all Northwest Texas and won a high place in their esteem. He had spent his life in railroad work beginning as a messenger boy for Mr. Bundy when the latter was in the Cotton Belt office at Big Sandy more than fifteen years ago. Later he worked as telegrapher for the Texas & Pacific and when Mr. Bundy went to the Pine Bluff agency of the Cotton Belt Mr. Shepperd worked under him there.

The funeral will be held from the residence of Dr. Wade Walker, his brother-in-law, at 704 Scott avenue at 4 o'clock this afternoon and will be conducted by Dr. J. L. McKee, pastor of the First Presbyterian Church. Interment will be made in Riverside cemetery. The active pall bearers will be: J. N. Prothro, N. M. Clifford, A. B. Maples of this city, A. G. Graham, W. H. Darwin and Jack D. Gowan of Fort Worth. The honorary pall bearers include M. A. and Abe Marcus, W. N. Maer, Marvin Smith, Walter Priddy and C. D. Shamburgher all of this city.

A number of railroad men came up from Fort Worth and Dallas this afternoon to attend the funeral. His mother and his brother have been here since he first became ill. His sister, Mrs. Larson arrived from Dallas on the noon train today.

A sister of Mrs. Shepperd's, Mrs. R. P. Fox of Fort Worth, was made a widow just five weeks ago through the unexpected death of her husband who was stricken with heart trouble.

LANCASTER PROOF
Should Convince Every Lancaster Reader.

The frank statement of a neighbor,
telling the merits of a remedy,
Bids you pause and believe.
By some stranger far away
Commands no belief at all.
Here's a Lancaster case.
A Lancaster citizen testifies.
Read and be convinced.

Mrs. C. T. Brummett, Crab Orchard
St., Lancaster, Ky., says: "My kidneys
were out of order and I had pains
through my back and kidneys. At times
I was nervous. Dean's Kidney Pills
made me feel much better and stronger
in every way."

If your back aches—if your kidneys
bother you, don't simply ask for a kid-
ney remedy—ask distinctly for Dean's
Kidney Pills, the same that Mrs. Brum-
mett had—the remedy backed by home
testimony. 50c all stores. Foster-

Catarrh Victims.

Use Hyomei—You Breathe It.

It's the right-to-the-point remedy
not only for catarrh, but for head colds
sniffles, bronchitis, laryngitis or croup
of children. You breathe in—no stomach
dosing.

You will like Hyomei. It not only
gives instant and lasting relief, but is
entirely harmless, pleasant to use, and
economical. Money refunded by R. E.
McRoberts if you are not benefited.
Hyomei is a combination of antiseptic
oils that mixes with the air and quickly
reaches the irritated and inflamed mem-
brane of the nose. It's sure and safe
healing brings immediately—yon feel
better at once.

If suffering from watery eyes, husky

**THIS STOMACH REMEDY
HELPS YOUR FRIENDS.**

Almost every day some grateful per-
son comes into our store and tells us of
benefits received from the use of Rexall
Dyspepsia Tablets. Knowing how much
good they have done others and know-
ing what they are made of, we feel
sure they will help you. So great is our
faith in them that we urge you to try
them entirely at our risk, with our per-
sonal promise that if they don't do all
you expect them to do and make your
stomach comfortable and healthy and
your digestion easy, we'll hand back
your money.

We couldn't endorse anything any
more strongly than we do Rexall Dys-
pepsia Tablets. Containing Pepsin and
Bismuth, two of the greatest digestive
aids known to medical science, they
soothe the stomach, check heartburn
and distress, promote a natural flow of
the gastric juice, and help regulate the
bowels. Remember, if they don't make
your digestion so easy and comfortable
that you can eat whatever you like
whenever you like, we want you to
come back and tell us and get your
money. Sold only at the more than
7,000 Rexall Stores, and in this town
only at our store. Three sizes, 25c, 50c
and \$1.00—McRoberts Drug Store,
Lancaster.

lief is at hand. Mi-o-na Stomach Tab-
lets, sold in fifty cent boxes at all drug
stores, are a specific for out-of-order
stomachs.

Mi-o-na is not only a quick digestive,
but a stimulant and strengthener of the
stomach walls. It increases the flow of
digestive fluids, soothes the irritated
membrane, and puts the stomach in
shape to do the work nature intended.

I suffering with indigestion, dyspep-
sia, gastritis, or any of the various
forms of stomach misery, usually indi-
cated by nervousness, distress after
eating, headache, dizziness or sour
stomach, do not wait, do not suffer
needlessly—take Mi-o-na today. R. E.

Lowell hill on Friday. The horse be-
came frightened and ran away throw-
ing Mr. Todd out and breaking his leg.
The children were uninjured.

WEATH OF HAIR

Parisian Sage Makes Thin Lifeless Hair
Soft And Abundant.

Beautiful hair, fluffy, lustrous, abun-
dant and free from dandruff is one of
woman's greatest charms—it's her
main delight—yet so many of the fair
sex have streaked, thin and lifeless
hair and think there is no remedy.
Beautiful hair is largely a matter of
attention. Parisian Sage frequently
applied and well rubbed into the scalp
works wonders. Try it today, and you
will be surprised with the result—not
only will the hair become abundant,
soft, fluffy, radiant with life, but really
doubly beautiful.

Parisian Sage supplies hair and scalp
needs. It surely removes dandruff with
one application stops itching head and
cleanses the hair of all dirt and ex-
cessive oil.

All drug and toilet counters sell
Parisian Sage in fifty cent bottles.
Look for the trade mark—"The Girl
with the Auburn Hair". Try at least
one bottle from McRoberts Drug Store.
He will refund the money if you are
not satisfied.

HARKSBURY.

Monte Fox of Danville.

Miss Long from Antioch spent the
week end with Misses Stella and Nel
Clark.

Mr. Ben Hughes and family spent
Sunday with her mother Mrs. Margar-
et Sutton.

A Spelling Match will be given at
Rice Academy on the afternoon of
March 27th. Mr. Edwards has kindly
consented to conduct the spelling match
assisted by Misses Pattie Belle Burke
and Elizabeth Bryant. With these 3
good teachers at the helm an enjoyable
time is expected. Misses Susan Sutton
and Mary Chesnut will preside at the
candy table which will be a feature of
the afternoon. Admission 10 cts. for
children 12 years old and under 5 cents.
A nice box of candy will be given to
the best speller. Young and old are in-
vited to attend, proceeds will go to
Ladies Working Society.

To The Housewife.

Madam, if your husband is like most
men he expects you to look after the
health of yourself and children. Coughs
and colds are the most common of the
minor ailments and are most likely to
lead to serious diseases. A child is
much more likely to contract diphtheria
or scarlet fever when is has a cold. If
you will inquire into the merits of the
various remedies that are recommended
for coughs and colds, you will find that
Chamberlain's Cough Remedy stands
high in the estimation of people who
use it. It is prompt and effectual,
pleasant and safe to take, which are
qualities especially to be desired when
a medicine is intended for children.
For sale by all dealers. 1-m.

**PROTECT THE HEART FROM RHEUMA-
TISM.**

Rheuma Purifies The Blood And Throws
Off Complicating Diseases.

Weakening of the blood tissues by
continued attacks of Rheumatism af-
fects the heart and produces complica-
tions which result fatally. RHEUMA
puts the blood in condition to ward off
other diseases and eradicates Rheu-
matic conditions from the whole system.
Recommended for all forms of Rheu-
matism. 50 cents at R. E. McRoberts.
This letter will convince you of its great
value:

"I was so crippled with Sciatic Rheu-
matism I could not walk. Doctors
could do nothing for me. After taking
three bottles of RHEUMA, the Rheu-
matism had entirely left me."—Guy

CRAB ORCHARD.

Mr. Willis is out again after a serious
illness.

Mrs. Laura Blanton of Richmond is a
guest at the Springs.

Miss Anna Hutchinson has been sick
several days but is better.

Mr. James Hays Jr. will rent rooms
of Mrs. Walker and moves in a few
days.

Mr. Thomas Manuel Jr. and wife of
Gravel Switch are with his fathers
family here.

Mr. and Mrs. Sam Tatem have re-
turned from a pleasant stay with rela-
tives in Tenn.

Miss Clara Collier has returned from
a delightful visit to her brothers family
in Louisville.

Mrs. W. E. Perkins went to Mares-
burg this week to see her uncle who
has been sick.

Rev. Gabbard preached excellent
sermons Sunday morning and evening
at the Christian church.

Mrs. Elizabeth Darlar has moved into
the home of Mrs. Jennie Dunn and is
much improved in health.

Mr. and Mrs. James Guest are visit-
ing their daughter Mrs. Gill Boyle in Lou-
isville, who shortly will move to Chicago
to live.

The beautiful spring like weather of
the last few days is welcomed by the
farmers, and plowing is steadily going
on. Many of our farmers are preparing
to raise large crops of tobacco.

The play gotten up by Mrs. David
Newland, for the benefit of the Mis-
sionary fund of the Christian church,
was a success considering she had only
a few days for preparation. The pro-
gram was good.

Crab Orchard is very proud of its
town marshal, Mr. Ramsey who is cer-
tainly doing his duty in a most fearless
and satisfactory manner. He does not
excuse race, color nor standing in the
lawbreaker. So you had better be
careful how you conduct yourself in
our little city, which is for peace, har-
mony and prosperity.

**CLEAN MILK FROM
THE SMALL DAIRIES**

Sanitary milk supplies may be fur-
nished by the small dairies as well as
by the larger ones by keeping the milk
"clean, cool and covered," according to
Professor R. R. Graves, head of the
Oregon Agricultural college dairy de-
partment. Cleaner milk rather than
richer milk is the demand of the pub-
lic. And it is a demand that must be
met by the dairyman with a small
farm dairy if the market for his prod-
uct is to continue. The treatment nec-
essary in observing the three part rule
is neither troublesome nor expensive,
notwithstanding the fact that trouble
and expense are urged as reasons
against the production of sanitary milk.
The quality of the milk may be easily
improved without materially in-
creasing the cost of production.

Bacteria, dirt and foul odors are the
usual causes of insanitary milk.
The largest number of bacteria
found in milk fall into it during the
milking. They come from the dust in
the air and from particles of dirt, hair
and manure. This number can be de-

The rugged Brown Swiss cattle
until recently were subjected to
severe criticism from dairy cattle
breeders in this country by reason
of their departure from established
dairy type. They first came here
in rugged, not to say rough, form,
and with hides that usually lacked
much of mellowness. But when
one of the breed made above three
pounds of butter a day in a public
test dairymen began to change their
attitude, and today the Brown Swiss
cow is highly regarded as a milk
and butter producer. The cow
shown produced in one year 10,539
pounds of milk and 45 pounds of
butter fat.

creased by keeping the cow well clean-
ed and by wiping the udder and flanks
with a moist cloth just previous to
milking. No dry feed should be given
the dairy cow until after milking, and
if the floors are quite dry they should
be sprinkled down lightly. Neither
should roots or strong vegetables be
fed before milking.

The personal habits of the milkers
must be closely looked after. Absolute
cleanliness of clothes and person is
indispensable to the milk of sanitary
milk. If the clean white suits used in
commercial dairies are not available
their place may be well supplied by a
long, light, loose fitting coat, which is
worn during milking and at no other
time. The practice some milkers fol-
low of moistening the udders with
milk is too filthy to be tolerated in any
dairy. If the teats and udders have
been wiped as suggested they will not
need further moisture.

As warm milk rapidly absorbs all
odors present, it should be removed
from the milking stable immediately
after being drawn. It may be cooled
by pouring it into cans that are sitting
in tubs or tanks partly filled with
water as cold as can be had. If pos-
sible it should be reduced to 50 degrees
or lower, in which case bacterial ac-
tivity almost ceases. The cooling process
is hastened by occasionally stirring
both the water and the milk with a
clean rod, and it should be completed
at least before the end of an hour.

Another source of bacteria in milk is
improperly cleaned milk vessels. All
pails and cans in which milk is kept
should be washed in warm water with
a bit of soda or other detergent and
then immersed for five minutes in
boiling water. Special attention should
be given to corners, where decayed
milk containing souring and putrefy-
ing bacteria is found.

USE ARNOLDS BUGGIES

We often hear the remark that "Arnold sells a lot of Buggies because he advertises" and we usually have to smile when we hear this because advertising gets credit for so much.

Do you think for a minute this business of ours would be 10 years old, prosperous, well and favorably known all over this country if we did not have the right kind of construction at the right prices.

Don't say no when you are not sure. But say I won't buy a Buggy until I have seen

Arnold's NEW PATENT Double Reach Reenforced Gear

and many other improvements on the 1914 buggy.

One thing we want to get into your system; Money spent for Arnold's Buggies is well spent.

We solicit your business and extend an invitation to visit our factory.

R. M. ARNOLD, DANVILLE, KY.

Wet Clear Through.
A little girl was playing at the table with her cup of water. Her father took the cup from her and in so doing accidentally spilled some of the water on her. "There," she cried, as she left the table indignantly, "you wet me clear to my feelings!"

Worship of the Serpent.
The Apaches profess to be descended from a snake, and venerate it accordingly, and the most extraordinary prehistoric earthwork on the continent testifies to the power of the serpent on the imagination of primitive man. The tribes of central Australia, the most primitive people in contact with modern civilization, have in a mythical serpent of gigantic size and magical attributes their nearest approach to a deity.

Serpent in Old Legends.
The serpent was among the gods of the Land of Egypt, where Moses led his people, and they found it among the gods of the land they were to subdue. Cadmus, the Phoenician who invented letters, became a serpent. Lovers of Wagner will not fail to recall that Alberich transformed himself into a "worm" to guard the stolen Rheingold. But the trail of the serpent may also be traced through the legends of Greece, or for that matter through those of the earlier American peoples.

Proud of His Infamy.
When the Volturino burned in mid-ocean a few of the men rushed the boats and were knocked down by the captain. What becomes of such men in after days? Do they hide in shame from their fellows, fearful that they may be recognized and their infamy proclaimed? Not necessarily. A public librarian was once visited by a man who came to him for a book on notable shipwrecks. He searched the pages eagerly, then pointed out a passage referring to a seaman who tried to take a woman's place in a lifeboat and had been shot by the captain. "I'm that man," he declared, proud that his exploit should appear in print, and offered to show the shot wound to support his claim.—Chicago News.

From Many, One.
"This is our most valuable fowl," said the amateur hen farmer.
"A fine bird," remarked the visitor, trying to look wise.
"Yes, indeed. We have named her E Pluribus Unum."
"Why the name?" the visitor questioned.
"She came from the only egg that hatched of fifty in the incubator."—New York Times.

Worse and More of It.
"How fat Eileen is getting," said the young man. "I think it's a shame for a girl to take on flesh that way."
"You shouldn't say that to me," protested the young woman archly. "I am a little plump, myself, you know."
"I know, I know," he hastened to apologize. "But it's all right with you. I mean it's a shame when a girl's young."—Cleveland Plain Dealer.

Off Guard.
"How did it happen that your friends got the best of you?" queried the inquisitive person.
"They got busy while I was watching my enemies," explained the man who had got the short end of it.—Chicago News.

A Better One.
At the monthly meeting of a certain homing society, one of the members related an interesting experience. He had recently sold a couple of "squeakers"—very young pigeons—to a man whose cote was 200 miles away. He sent them off by train and was astounded to find them back in the old cote two days later.

There was a painful silence, broken at length by the president's "Wonderful!"
"You doubt my word?" demanded the narrator of the story.
"Not a bit of it," was the reply. "It's a strange coincidence, that's all. I sold the very same man a setting of eggs in the middle of June. Before the end of the month those birds had hatched out and had flown back to me! Homing instinct's a wonderful thing!"—Youth's Companion.

The Order of the Seraphim.
The Order of the Seraphim is the oldest and most famous of the decorations in the gift of the king of Sweden. Originally it was instituted by Magnus IV., some 600 years ago, to commemorate the siege of Upsala, the ancient capital of the Swedish kings, and its statutes bound the recipients of the order to fight to the death for the maintenance of their religion and to constitute themselves the special protectors of the widow and the fatherless. When it was revived about the middle of the eighteenth century by King Frederick the obligations laid upon the members were somewhat less onerous. The decoration consists of an eight pointed star in white enamel with cherubs' heads of gold and is worn on a broad band of pale blue ribbon.

Banana Meal.
It has been proved in India and the Malay peninsula that the produce from one acre of bananas or plantains, as the fruit is termed in that region, will support a much greater number of people than a similar area under any other crop, and the immense yield may be preserved for an indefinite period by drying the fruit and preparing meal from it. Plantain meal is made by stripping off the husk, slicing the core, drying it in the sun and then reducing it to powder, and finally sifting. It is calculated that the fresh core will give 40 per cent of meal and that an acre of average quality will yield over a ton.

Extinct.
Teacher—Now, James, do you understand the meaning of the word "extinct"?
James—Yes'm. Teacher—Then name one bird that is now extinct.
James—Chipper. Teacher—Chipper? What kind of bird is that? James—My pet pigeon. The cat caught him this morning.—Judge.

Government.
"Is this a government of the people, for the people and by the people?"
"Well, it was in the day of log houses and open fireplaces, but since we have built skyscraper blocks and 200 family apartment houses we have developed janitors."—Buffalo Express.
